EDUCATION

Bahrain Polytechnic

Bahrain, 2022-2026

Bachelor of ICT - Programming

Reboot coding institute

Bahrain, 2023-2025

Full-stack Developer Diploma

EXPERIENCE

MenaMoney Technology — Full-Stack Developer , Feb - May 2026

Migrated the frontend to Vite 6 with a Tailwind CSS v4 design system and built a full admin portal and business accounts staff management system with JWT-based permissions. Integrated Google Gemini AI for portfolio analysis, Marketaux API for news with sentiment analysis, Yahoo Finance for automated daily price loading, and AWS SES for transactional email delivery.

Tech used: React, Vite 6, Tailwind CSS v4, Redux, Node.js, Express, PostgreSQL, JWT, Google Gemini, AWS SES

PROJECTS

GoRent

A web-based equipment rental platform built with ASP.NET.

- Developed user authentication, equipment listing, and availability tracking
- Designed responsive, dynamic UIs using Razor syntax, Bootstrap
- Focused on usability and performance across user roles (admins & customers)
- Tech used: ASP.NET MVC, C#, Razor Pages, Bootstrap, SQL

SeekersBH

A feature-rich iOS app that streamlines the job-seeking and recruitment process for users in Bahrain.

- Designed for both job seekers and employers, combining job search, resume creation, career resources, and real-time communication in one platform
- Contributed to key features like the Admin Dashboard and User Messaging System, enabling user connection, direct messaging
- Tech used: Swift, Firebase, Cloudinary, Xcode, Figma

SKILLS

GoLang	SQL , SQLite	Multitasking
TypeScript	Laravel	Attention to detail
C#	Tailwind CSS	self-motivated
Swift	Rust	problem-solving
PostgreSQL	React	Express
